Prepaid Testimonial #10:

Speaker 1: "I selected the Florida Prepaid plan. There were actually two reasons: the main reason was the All-In-Cart pricing. I consider that to be a big factor, to allow me to actually go in and select if I want to actually save for a 2 year junior college or a 4 year major university or if I want to go ahead and pay her room and board or just for the college education. That was, they made it very affordable which allowed me to actually afford to save for her college. Another reason I selected the Florida Prepaid College Plan is because right now college is so expensive and my daughter is only six, so by the time she enters college, 12 years from now, it may be astronomical. I know I can't afford it then, so I'm saving now to allow me to have the opportunity to present it to her when she graduates, which will allow her to go to college stress free. Because I graduated from college but had to pay my way through college and work while going to college and that makes it difficult. And I really want her to focus on her education and not how it's going to get paid, so I decided to make the sacrifice now to pay for her education now, rather than wait 'til later. And the Florida Prepaid College Plan was really exciting to me because like I said, if I couldn't afford for her to do a 4 year major university at least I could start to pay for a 2 year community college plan and then opt to select at a later date to add on to it. So that makes it very attractive. You know there's some stuff you're going to have to sacrifice in order to make it happen, such as you know, buying Starbucks everyday. I'm not a big coffee fan but I know like to go out and do things, exciting things. Sometimes I know certain months I can't do that because I need to know that her education is paid for. So those were some of the attractive benefits of the Florida Prepaid Plan. "
