

Save today for their tomorrow.

Speaker 1:” My name is Betsy Holes and I am here with my two daughters, I started prepaid for Jodalee because Joycee was too old when I was acquainted with the program so I started for my daughter Jodee and my youngest Marlene. because I only had 3 years to pay it off. Then when I had Marlene it was since second grade, I was paying for her for 10 years and it was easy to pay her for prepaid. I did a four-year program for them, and then after my daughter got married she had her twins and had her do Florida Prepaid for her kids. And now my other daughter Mabby as Florida prepaid and one on that’s on the way and if he comes, hopefully he comes before February, he’ll have it too.”

Speaker 2: ”But I got it for her because study is not an option in my house, you have to do it, it’s your future, and with Florida Prepaid it’s the best thing to do because you get to pay it and you get to freeze the prices and the price that is now and it’s always good to be ready for whatever comes.”

Speaker 3: “I decided to get Florida Prepaid for my daughters because there’s two of them and it’s not going to be easy to go to college. So I decided to pay from now so it can be better for us in the future.
