

Save today for their tomorrow.

Speaker 1: “Jalen was born December 4th 2008, um sorry, 2007. So I decided shortly thereafter to look into purchasing Florida Prepaid for Jalen. Savannah’s my sister so Jalen, Jalen’s grandmother passed away the day after he was born so I wanted to do something for Jalen because I wanted him to have something for his future and having no grandparents and his mother being a young mother, I felt that I needed something to secure his future, so that’s why I purchased the Florida Prepaid. It really wasn’t a hard decision, going online and looking into everything and printing out the different options trying to figure which one would be better for him. And I just decided um, the four year plan, about the cost of \$100 a month is a commitment but I can give up getting my nails done or my nails done for sometime in order to make sure that’s paid for him so that he has something to help him with his future because college is very important.”

Speaker 2: “Say Hi Jalen! Say I’m going to college, I’m going to college!”
