Prepaid Testimonial #6

Speaker 1: “Hi my name is Linda Browning, this is my husband Nelson, my daughter Kimberly, her husband Courtney and their son Carter, our grandson. I purchased, Nelson and I purchased, the college Prepaid program for Carter because we wanted to be sure he got a college education and not worry about borrowing money. We didn’t want Kim and Courtney to have to worry about borrowing money; we don’t know what the future holds. So we were able to lock into today’s prices for his tuition and I also purchased the local plan and at some point we hope to be able to add the dormitory plan and other features for what we are able to offer Carter. When I purchased the plan I was able to have it deducted and it was really easy, but I’ve since retired and now I have the options to make payments directly to the plan or having it deducted from out checking account.

We wanted to be sure Carter could go to school, not worry about taking out loans or borrowing money from other places to pay for his education and also, for Kim and Courtney to rest assure that Carter will be able to get an education at little or no cost.”
