### Prepaid Testimonial #7:

Speaker 1: “Hi, my name is John Toby, this is my wife Julie and this is my oldest daughter, Lauren. We are here today to talk about our Florida Prepaid Plan we have started for our children. We have three total, we have our son Connor and our daughter Madison, um we wanted to provide for their future and their college a little bit better than what I had growing up so this felt very easy and through the state of Florida we were able to know that it was guaranteed that we could feel secure that our money was going for what we want it. Um we did the four-year college plans for each of our children. Our daughter Lauren is turning 13, so obviously she is the closest to it so we’re seeing all this come to fruition from when we started, we started all the kids from when they were first born, so by doing that you get in the cheapest rates for and you get to lock in those rates for the whole 12 yrs of their going to school. So that’s very beneficial, there’s not fluctuation, up and down of money, so you budget yourself out for a certain amount of money for the month for the one kid it’s going to stay that way the whole 12 years so you can really budget your money out real well for that.”
