

2025 – 2026 Approved Housing University Dormitory

The University Dormitory Plan is designed to be used at approved standard double-occupancy dormitory rooms at State Universities in Florida; however, all university-held* housing options are eligible for payment from Florida Prepaid. Additionally, the University Dormitory Plan can be applied to dormitory rooms at some private or out-of-state** colleges.

Below is a list of residence halls (and/or types of residence hall) by State University that are currently approved. ***This list is subject to change without notice.***

For more information, contact the housing office at the selected university.

***Non-approved university-held housing** – In addition to the approved dormitories listed above, the University Dormitory Plan can be used for any university-held housing. If the non-approved housing cost is greater than that of the approved standard double-occupancy dormitory room, the student is responsible for the difference.

****Private and out-of-state college housing** – Students attending a private or out-of-state college can use their University Dormitory Plan benefits. The amount covered by the plan may be applied to dormitory housing costs nationwide. The student is responsible for housing costs that exceed the current average rate payable to a State University in Florida.
