

My road trip to savings!

Here's how to play:

1. Set your savings goal in a multiple of 10 (10, 20, 30, 40, etc...)
2. Divide your goal by 40. That is how much each space is worth!
3. Each time you save that amount, color in a space and watch your savings grow!

Ex: If \$100 is your savings goal, simply divide \$100 by 40 to get \$2.50. Color in one square each time you earn \$2.50 until you have \$100 in your piggy bank!

The road starts at a yellow circle labeled "Start!". It winds through various landmarks: a playground, a school, a swimming pool, and a traffic light. Progress markers include "Off to a Strong Start!", "Halfway There!", "Don't Quit Now!", and "Goal!".

Start!

Off to a Strong Start!

Halfway There!

Don't Quit Now!

Goal!
