

# You can set your child on a path to success with two simple steps:

1. Attend preschool every day. If your child attends more than 90% of preschool classes, they are more likely to be reading proficiently by 3rd grade.
2. Start saving for college early. Every little bit helps. Children with up to \$500 set aside for college are 2x more likely to enroll and graduate.

We've helped more than **1,000,000 families** save for college.

## Now it's your turn.
